

Searcys at Bath's Historic Venues

Established in 1847, Searcys have been at the Roman Baths and the Pump Room since 2004, providing catering for unique events in these exquisite venues in the social heart of the city.

Our Head Chef, Mark Pearson, and his team take great pride in producing food of an exceptionally high quality. Together they have created a selection of dishes with the emphasis on careful seasoning, subtle flavours and simple garnishes.

Searcys also work in partnership with some of Bath's leading suppliers who share our passion for sourcing the best local produce.

These include Lovejoys Grocers, Fussells Fine Foods and John Sheppard Butchers. We believe that the quality of our food is matched by professional but friendly, attentive service, real flexibility and a true understanding of our clients' needs.

Whatever your requirements may be, you can rest assured that Searcys will provide quality catering and a seamless service within the most unique and stunning venues in Bath.

Our packages are priced based on minimum numbers or spends. If your event is for a more intimate number of guests, meaning those minimums are not met, then please do contact us to discuss directly. We will be happy to put together a bespoke package for you.

Bath's Historic Venues are managed by Bath and North East Somerset Council

Our coffee comes from Notes Coffee Roasters which supports community farms and uses its Roas-Tree scheme to help fight deforestation.

All fresh eggs used in our kitchens are British free-range and RSPCA-certified from St Ewe Farm.

Plant-based and vegetarian dishes are a key part of our menus, with the goal to make them 25% of all menus by the end of 2025.

We work with the best English Sparkling Wine producers, and have created our own label with a vineyard in Guildford.

We will only use British RSPCA-assured fresh milk by the end of 2025.

In 2025 we are launching Nourish by Searcys conference menu package designed to offer maximum nutritional benefit for minimum environmental impact. All recipes have a low–moderate CO₂ footprint, measured using our Nutritics system.
